[1 Edw. 8. Ch. 4.]

CHAPTER 4.

An Act to amend the Army Act, 1908, and to amend the Regulations of the Army.

[1914, April 1914.]

Whereas the raising or keeping of a standing army within the United Kingdom of Great Britain and Ireland in times of peace, or law is by the several Parliaments, as appears by law.

And whereas it is judged necessary by His Majesty and this present Parliament that a body of forces should be maintained for the safety of the United Kingdom and the defence of the possessions of His Majesty's Crown, and that the whole number of such forces should consist of five millions, including those to be employed in the Islands in the United Kingdom of Great Britain and Ireland for the training of recruits for service at home and abroad, and of others of the numbers actually serving within His Majesty's Indian possessions.

And whereas it is also judged necessary for the safety of the United Kingdom, and the defence of the possessions of His Majesty, that a body of Royal Marine forces should be employed in His Majesty's fleet and naval service, under the direction of the Lord High Admiral of the United Kingdom, or the Commissioners for executing the office of Lord High Admiral of the United Kingdom, and whereas the said marine forces may, frequently be quartered or be on duty, or sent to sea duty or be on board transport ships or vessels, or on other ships or vessels, or other ships or vessels, or they may be under other circumstances, in which they will not be subject to the laws relating to the Government of His Majesty's forces by sea.

And whereas no man can be foregoed of life or limb, or subjected in time of peace to any kind of punishment within the realm, by martial law, or in any other manner than by the judgment of the peers and according to the known and established laws of the realm; yet, nevertheless, it being requisite, for the retaining all the bodies aforesaid forces, and other persons subject to military law, in their duty, that as much discipline should be observed, and that persons belonging to the said forces who in the regular or irregular service, or in the service of His Majesty's service, or are guilty of crimes and offences to the prejudice of good order and military discipline, be brought to a strict discipline and speedy punishment than the usual laws of the law will allow.

And whereas the Army Act will expire in the year one thousand nine hundred and eighteen on the following days:—

(a) in the United Kingdom, the Channel Islands, and the Isle of Man, on the thirtieth day of April 1914.

(b) Elsewhere, whether within or without His Majesty's dominions, on the thirty-first day of July.

contained in the supplementary volume is suitable for reference as it reproduces literature of a very interesting character. The Government of India have examined the report carefully and decided to publish it with a few omissions which are marked by asterisks. These are made solely in the public interest and do not in any way affect the substance of the Committee and the conclusions which they have reached. For this reason given by the Government it has been deemed to withhold from publication the relation of aggression. It is manifestly inappropriate that the periodicals in which it reproduces should obtain publicity; the miserable history of violence in India has all too often shown, and the report amply testifies, how the seeds of violence are fast sown, especially in the institutions of the Government of India, by access to the literature of anarchy and of war.

3. The report, which is extensive, is based largely on an extensive mass of authentic documentary evidence, and gives a full and accurate account of the origin and growth of revolutionary activity in India, while the conclusions of the Government, and the interconnection of its various phases in different provinces, are stated with admirable clearness and precision. In conclusion the Committee submit their recommendations regarding the steps required to meet the difficulties they have seen, and there will now be taken into consideration.

4. In examining the publication of the report the Government-General in Council takes the opportunity of expressing his high appreciation of the labours of the Committee, and of the manner in which the results of their investigations have been presented.

Acting Chief Secretary.

Governor, July 13, 1913.

No. 34.—An Ordinance is being promulgated to-day empowering the Government of India to coin gold mohurs or 15-rupai gold pieces. The standard weight, fineness and dimensions of the new coin will correspond to that of the sovereign, and it will be full legal tender at Rs. 15 per gold mohur. The coin will bear on its obverse the head of His Majesty as in the case of the present rupee coinage and the legend George V. King-Emperor, and on the reverse an unmounted border, the words 15 Rupees, India, and the year of coinage. As the public are aware, a branch of the Royal Mint has been established at Bombay for the coinage of sovereigns. There have, however, been some delays owing to the non-arrival of the necessary dies and other causes, and a few weeks will probably still elapse before it is possible to commence the coinage of sovereigns. In the interim, it has become desirable, in order to supplement the rupee stocks of the Government of India, to coin a portion of the large gold holding in the Paper Currency Reserve in so far as this is at present in the form of gold bullion or foreign coin.

2. The present intention is to use these new gold coins in conjunction with currency notes, to enable the Wheat Commissioner to carry out his programme of purchase of wheat in the Punjab.

3. As the public are aware, the Government of India are now receiving large consignments of silver from Australia which the mints are working up into rupees as rapidly as possible, while, in addition to the shagunats already received, further shagunats which will be sufficient to coin into over 15 crores of rupees are already on their way and are expected very shortly, and these will be followed by further large consignments. Meanwhile the Government of India have large disbursements to make in connection with the purchase of wheat and otherwise, and they consider that it will be expedient to provide for a portion of these payments being made in gold, in order to enable them more rapidly to replenish their rupee stocks from the new coinage which the mints are now carrying out.

4. In the present emergency the Government of India desire to draw attention to Rule 21-A issued in June 1912 under the Defence of India Act prohibiting the melting, breaking up, or use otherwise than as currency, of any current gold or silver coin. They remind the public of the object of protecting their own reserves, and they hope that the greatly attaching to these coins, which, in the event of a war, would provide an adequate fund, and that it would be unnecessary to submit more than an occasional prosecution in order to secure the observance of the law. They regret that this has not proved to be the case, and that the melting of sovereigns has, according to their information, since taken place on a considerable scale while cases of the melting of rupees have scarcely been reported.

5. The Government of India therefore notify for general information that they propose to take steps to check these offences by the prosecution of those detected in committing these and that they will not hesitate, if necessary, to take further powers in order to secure the object which the present law has in view.

6. At the same time they wish to point out the disadvantages of hoarding coin or of melting it down for the manufacture into ornaments, as these are apparently not so widely appreciated as they ought to be. The position briefly is that, in order to ensure an adequate supply of rupee currency, the Government of India have entered into an arrangement for the purchase of very large amounts of silver from the United States Government, and it is in pursuance of this arrangement that they are receiving the large supplies of silver referred to above. Owing, however, to the present high price of silver, the arrangement is necessarily an expensive one. Further, apart from the mere question of the cost to India of the large additions which are now being made to the metallic currency of the country, any reduction which can, suitably be effected in the sums spent by her abroad for the purchase of bullion for her coinage will thereby be a saving of considerable amount for effective war expenditure. To the extent, therefore, to which the practice of hoarding and melting sovereigns and rupees necessitates the purchase of bullion for coinage, these practices are a real hindrance to the effective prosecution of the war.

7. The most direct method in which every member of the public can further this object is that emphasized by His Excellency the Viceroy in his speech during the last session of the Imperial Legislative Council on the 21st March last, namely, that he should subscribe to the extent of his ability to the forthcoming war loan. Apart from this, the mere refraining from the melting down of coin or from the purchase of gold and silver ornaments, which must of necessity diminish the amount of silver available for the purchase of bullion for the purpose of maintaining an adequate supply of metallic currency. While, therefore, the Government of India will feel stringently with any offences committed in respect of their legal tender coin, they trust that the necessity for strict prosecution in their part will be minimized by the whole-hearted co-operation of the public in the directions indicated above.

Governor, July 13, 1913.

No. 35.—The Bank of Madras has offered to make available to Government servants who are employed in the Madras Presidency and who may make application to the Bank not later than the 22nd August 1913, facilities for subscribing to the Second Indian War Loan by means of monthly instalments extending over a period of two years.

2. The terms on which the Bank of Madras proposes to make advances are set out below:—

(1) On payment by the borrower of a deposit of 4 per cent of the amount applied for, the Bank will make an advance of the balance of the intended subscription.

(2) The Bank will purchase, and, pending the complete repayment of the advance, retain the scrip.

(3) The amount will be repaid within two years by monthly instalments of not less than 4 per cent, but it shall be open to borrowers to repay by larger monthly instalments and to make other part-payments at any time convenient to them.

(4) On the amount advanced, the Bank will charge the borrower interest at 5 per cent calculated on the outstanding daily balance. On the other hand, the borrower will be credited by the Bank with the full interest realised on the security.

(5) If a subscriber allows his instalments to fall in arrear, the Bank may at its discretion sell the security at the market rate and close the account, any balance over being refunded to the subscriber who on the other hand will be liable to pay any shortfall.

(6) On complete repayment of the advance, the Bank will transfer the scrip to the borrower and present an account of the interest adjustment.

(7) The advances from the Bank will, in the case of each borrower, be limited to an amount equal to his salary for three months; but an officer who desires to take up a larger amount may do so under the Bank's scheme for advances to private individuals.

(8) The instalments due to the Bank from a Government servant will be deducted monthly from his pay by the head of the office concerned, who will arrange to remit the amount to the Bank of Madras or any of its branches, as the case may be. In the case of gazetted and other officers who prepare their own pay bills, it will be convenient if they will arrange to send their monthly pay bills to the Bank (if payable at Madras or at a place where there is a Branch of the Bank) for their credit, giving the Bank standing authority to debit their accounts with the instalments as they fall due. Remittances made to the Bank either by the subscriber or for him by the head of the office should be sent at the cost of the subscriber.

No deductions should be made in the pay bills presented at the treasury. The head of the office will draw the full amount of the bill from the treasury and recover the subscription at the time of actually disbursing the salaries to the individuals concerned, a separate register being maintained in his office to show the amounts recovered from each subscriber and the amounts remitted to the Bank.

Gazetted officers who do not send their salary bills to the Bank for endorsement should also draw from the treasury the full amount of their salary and subsequently make their own private arrangements to remit to the Bank the subscription due.

(9) Applications from officers desiring to subscribe under this scheme should be made in the form printed as annexure to these proceedings.

(10) If an officer is transferred to another Province or to a department not under the control of this Government, he should arrange to send his subscription direct to the Bank of Madras.

3. Heads of departments and offices are requested to be as good as to give wide circulation to the scheme among all classes of officers subordinate to them. They are also authorized to refer on the Superintendent, Government Press, for as many copies of these Proceedings and the application form as they may require.

(2) The rest of the Presidency with the exception of the Nagpur district and the Wyndwick, Anjapur, Bhopalpur and the Aizawl valley of the Shillong district.

(3) The Nagpur State.

3. Tree-tapping licences shall be issued on the application—

- (a) of licensed toddy shopkeepers in areas in which the toddy shops are sold by auction or second agency; and
- (b) of persons having the exclusive privileges of manufacture and supply of second toddy shops as foreign liquor;
- (c) of persons who are applicants in the South Kanara district, provided that the application for licence is accompanied by an application for a permit for the transport of the toddy drawn to some particular shop and that the latter application is not forwarded or forwarded to be acted by the shopkeeper to whom the toddy is to be taken;
- (d) of persons generally, and of secondarily, in the Hyderabad district, and in the Marwar, Mithanur, Coimbatore, Nilgiri and Vengalpet taluks of the Madras district, for areas not less than five trees in the case of secondarily and three trees in the case of secondarily, for the drawing of toddy required for domestic consumption, but not for sale;
- (e) of toddy shopkeepers or others in the Mysore territory and in the Nagpur State desiring to obtain toddy from trees growing in British territory; and
- (f) of toddy shopkeepers in the Pudukkottai State desiring to obtain toddy from trees in British territory provided that the application is certified or countersigned by the British and Madras Inspectors of the State.

In cases (a), (b), (c), and (d) the licence may be issued in the name of the applicant himself or of his partner, and in cases (e) and (f) in the name of the applicant only.

4. Persons wishing to apply for the grant of tree-tapping licence must first pay the fees (or the first instalment thereof, as the case may be) due on account of the trees which they desire to tap, into a Government treasury, which may be either the District treasury, a Taluk treasury or a Sub treasury. District officers may also approve lands of villages to residents (persons on account of trees) and to grant complete licence. Pudukkottai persons who apply for trees in British territory must pay the full fees into a British treasury at the same providing in British territory.

5. (1) Applications for the grant of tree-tapping licence must be made in the prescribed form to the Inspector, Public, Agricultural and Customs Department, in charge of the areas in which the trees are situated. Forms may be obtained from the Inspectors of Public, Agricultural and Customs Department, and from all Sub-treasuries and Deputy Treasurers and will be supplied free of charge. Applicants pay in by shopkeepers and persons need not be stamped; those not to be other persons must have a receipt from the shopkeeper of one area. In any case, if the fees have been paid into a treasury, the application must contain a certificate of payment from the treasury officer; if payment has been made to a village head the receipt must come with the application. District officers and shopkeepers applying for trees in British territory should put the tree tax into the Mysore Inspectors' treasury and should present before the revenue collector or Deputy Collector concerned along with the application in form T.T. 4, the receipt with the Inspectors' certificate at the foot in the effect that the applicant is a person entitled to take out a tree-tapping licence in Mysore. The tree-tax should be collected at the higher rate if the trees are not the same as the trees on the two sides of the frontier.

(2) Applications for tree-tapping licence in the South Kanara district should be countersigned by the owner of the trees intended to be tapped, in token of his consent.

6. Toddy shopkeepers in tracts adjoining the Mysore territory will also be allowed to tap trees in Mysore for the supply of toddy to their shops on payment of the whole of the tree-tax in cash, money into the British treasury and subject to such restrictions regarding permits, etc., as may be prescribed in this behalf. The rate of tree-tax to be paid in such cases will necessarily be the higher rate in force if the rate is not the same on the two sides of the frontier.

The British and Mysore Governments reserve to themselves the right to impose, in addition to the present, a new fee for use of trees belonging to them, the same when imposed being payable by British and Mysore licensees alike. The arrangements agreed to by the Madras and the Mysore Governments with regard to the issue of licences for tapping trees in either territory as the application of licensees or shopkeepers in the other do not prevent the restriction of trees in any specified area in the Madras Presidency or in Mysore with a view to afford red thereon to any other subject of the same payment of tree-tax into a British or Mysore treasury does not require an applicant to supply licences for trees so reserved.

7. Toddy shopkeepers in British territory adjoining the Nagpur State will be allowed to tap trees in the State on payment of tree-tax, the rate being the same as in the Nagpur district. Similarly those in the Nagpur State will be allowed to tap trees in the adjoining British territory. Toddy shopkeepers in British territory adjoining the Pudukkottai State will be allowed to tap trees in that State on payment of tree-tax to that State at the higher of the rates prevailing on both sides of the frontier.

8. Persons applying for the issue of licences will be responsible to Government for all sums payable on account of the trees licensed to be tapped.

9. (1) On receipt of an application, the Inspector, unless he sees special cause to the contrary, will in case take steps for the marking of the trees by an officer superior in rank to a petty officer required by the latter to do so, the trees applied for by them. Should they fail to do so after reasonable notice, the fees paid by them shall be forfeit to be forfeited on the Collector's direction.

(2) In the Hyderabad district and in the Marwar, Mithanur, Coimbatore, Nilgiri and Vengalpet taluks of the Madras district, trees intended for the drawing of domestic toddy and those for the drawing of second toddy shall, as far as possible, be in separate tapes or blocks.

8. Collectors may, from time to time, prescribe the minimum number of trees to be entered in an original application. They may also direct that the trees situated in one village only shall be included in an application.

9. Tally shall not be drawn from any tally tree, nor shall any pole be attached to any tally tree, until the tree has been marked by the proper officer.

[Part, 1. cont.]

SALT, ARKARI AND CUSTOMS DEPARTMENT.

NOTIFICATION.

No. 4, dated 25th July 1906.

SALES OF SALT OR ARKARI FRANCHISES.

Notice is hereby given, that the privilege of sale of salt in independent shops in the revenue areas of the Presidency including the Bangalore District and the taluk farms of 127 villages of the Pudukkottai taluk of the Coimbatore district will be put up to auction subject to the conditions hereinafter set forth. The period for which the privileges will be sold will be twelve months commencing on 1st October 1906 and ending 30th September 1917. The number of shops and farms, the local limits specified for them and the dates on which, the places at which and the officers by whom the auction sales will be conducted, will be notified by Collectors in their District Gazetteers. The Collector of Coimbatore will notify separately the special conditions applicable to the taluk farms in his district. A separate notification will be issued regarding operations under the revenue system.

Conditions of Auction Sale.

I. A deposit must be made by each bidder before bidding and will be received by the selling officer on the day of sale. A deposit of Rs. 50 will adequately be required, being any person wishing to bid for any independent shop or any large number of shops. This will be reduced to Rs. 20 in the case of bidders for not more than two or three shops of an aggregate monthly value of Rs. 50 at least and to Rs. 5 in the case of bidders for single small shops. In the Bangalore District, the selling officer may, where he finds it necessary, require a deposit of Rs. 10 from bidders for taluk farms. In the Pudukkottai District, the selling officer may at his discretion reduce the deposit to Rs. 5 for shops whose average monthly rental does not exceed Rs. 2. In the case of farms Rs. 100 will be the ordinary deposit. This will be reduced to Rs. 10 in the case of bidders for farms of an aggregate monthly rental of not more than Rs. 100 and to Rs. 5 in the case of bidders for single small farms.

II. The shops or farms will be put up to auction in the order in which they are sought, unless the selling officer sees reason to change that order. Exact prices will be fixed on the declaration of the Collector. The reserve price placed by Government on the shops or farms will not be published, but the average of the previous five years' rentals will be notified by the Collector, whenever possible, for the information of bidders.

III. No person will be allowed to bid for another unless he holds a power of attorney from him.

IV. The officer conducting the sale may, at his discretion, refuse to accept the bid of any person on the ground (1) that he has been convicted by a Criminal Court or has previously been guilty of such a breach of the conditions of license or of a contract under the *Arakari Act* as to render him undesirable as a holder of a license; or (2) that he is insolvent or is answer to Government; (3) that his bid is purely speculative; (4) that he is a village officer or a relative of a village officer of the village in which the shop is situated or which is supplied by the shop, or of a neighbouring village; (5) that he is not a regular supplier of country goods for the district area within which the shop is situated; (6) that he is a regular bidder for low shops; (7) that such a person is necessary to prevent competition in the district of Government according to (8) for any other valid reason.

V. The shops will be knocked down to the highest bidder. If for any of the reasons mentioned in the preceding clause the highest bid is rejected, the next highest shall be taken or the shop reserved at the selling officer's discretion. In case of a tie the selling officer's decision shall be final. The sale will be subject to the approval of the Collector, who shall be at liberty to accept or reject any bid at his discretion. Such final confirmation will be tantamount to an acceptance of the bid, unless rejected by the Board of Revenue for special reasons, and will be necessary whether the sale be held by the Collector himself or by any officer appointed by him.

VI. At the close of each day's sale, the deposits made by the successful bidder will be returned to them. At the auction proceeds, each person whose bid is accepted shall at once, if so required by the selling officer, or otherwise at the close of the day's sale, make a further deposit of half a guinea's worth (in addition to the deposit made under clause II) for each ship or item unless the initial deposit equals or exceeds two months' rent. Should he fail to do so, the deposit made by him and all claims I will be forfeited and the ship or item sold to the person who has made the highest offer as the above conditions or otherwise disposed of by the Collector and the difference will be debited from his selling price, for the same or for any other ship or item.

VII.
